

Hunter College

OF THE CITY UNIVERSITY OF NEW YORK
FOUNDED 1870

159th Commencement Exercises

THURSDAY, JUNE 1, 1989
THE FELT FORUM
MADISON SQUARE GARDEN

Ricardo E. Alegría

Ricardo E. Alegría was born in 1921 in Old San Juan, Puerto Rico, and earned his BA from the University of Puerto Rico. He then attended the University of Chicago, earning an MA in anthropology and history, and Harvard University, where he received a PhD in anthropology. Dr. Alegría, a professor at the University of Puerto Rico from 1945 to 1976, is the author of several books and many articles. He has also directed the Institute of Puerto Rican Culture and the Office of Cultural Affairs of The Commonwealth of Puerto Rico, and he organized and currently directs the Centro de Estudios Avanzados de Puerto Rico y el Caribe. Dr. Alegría is a noted archaeologist and ethnographer and is internationally recognized for his contributions to preserving and nourishing Puerto Rican culture. He holds honorary doctorates from Catholic University of Puerto Rico, New York University, and the University of Puerto Rico.

Ronald H. Brown

Ronald H. Brown grew up in Harlem where his father managed the Theresa Hotel. He attended Hunter College Elementary School (at that time Hunter High School was open only to women) and earned a BA from Middlebury College and a law degree from St. John's University School of Law. After serving in the army in Korea and Germany, Mr. Brown worked for twelve years with the National Urban League. In 1980, he served as Deputy National Campaign Manager in the presidential campaign of Senator Edward M. Kennedy and then he joined the senator's staff as General Counsel and Staff Director for his Senate and Committee offices. Mr. Brown was also Chief Counsel for the Senate Judiciary Committee. In 1981, he joined the Washington, D.C. law firm of Patton, Boggs, and Blow, and in 1988 he was named Convention Manager for the Rev. Jesse L. Jackson's presidential campaign. Mr. Brown is now chairman of the Democratic National Committee.

Gertrude B. Elion

Gertrude B. Elion was born and grew up in the Bronx. She decided to become a cancer researcher following the death of her grandfather from stomach cancer. She attended Hunter College, graduating *summa cum laude* and first in her class in 1937. But in 1937, laboratory research positions were scarce, especially for women. Ms. Elion worked at marginal laboratory jobs and taught high school, saving enough money to earn her MS at New York University in 1941. It was not until 1944 that she obtained a genuine research appointment in the laboratories of the Burroughs Wellcome pharmaceutical company; she has worked there ever since, becoming Scientist Emeritus in 1983. Since 1970, she has also been on the faculty of Duke University. Ms. Elion won the Nobel Prize for Medicine in 1988, making Hunter College the only educational institution in the country to have graduated two women Nobelists (Rosalyn Yalow, '44, is the other).

159th COMMENCEMENT

Hunter College of The City University of New York

THURSDAY, JUNE 1, 1989, 3 PM

ORDER OF EXERCISES

Presiding: The President of the College

PROCESSIONAL

Academic Heraldry

The caps, gowns, and hoods worn by participants in these exercises are patterned after the attire of monks and students in the Middle Ages. Those who have earned the bachelor's degree wear a gown with a semistiff yoke, long pleated front, intricate shirring across the shoulders and back and long, pointed sleeves. The holder of the master's degree wears a similar gown, but the sleeve is square and closed at the end with the wearer's forearm coming through a slit near the elbow. Those possessing the doctor's degree wear gowns having broad velvet panels down the front and three velvet bars on the full, round, open sleeves. This velvet trimming may be either black or the color of the field of learning represented by the degree.

The hoods, over the shoulders and down the backs of the faculty, reveal the degrees and institutions of the wearers. The velvet binding or edging is distinctive of the subject to which the degree pertains. The lining of the hood, in silk, gives the color or colors of the institution granting the degree. The shortest hood is the bachelor's; the longest and the broadest is the doctor's; and the master's is midway between these in size. There is much duplication in the colors of the colleges; therefore, they will be left unidentified. However, there is a standard color for the subjects. The most common, including those used at Hunter College, are:

Arts, Letters, Humanities.....White
Business.....Sapphire Blue
Education.....Light Blue
Engineering.....Orange
Health Sciences.....Kelly Green
Law.....Purple
Medicine.....Green

Nursing.....Apricot
Pharmacy.....Olive
Philosophy.....Dark Blue
Sciences & Mathematics..Golden Yellow
Social Sciences.....Dark Blue
Social Work.....Citron
Theology.....Scarlet
