

*Some people have all the luck. Like these young children who, while the rest of the city swelters, play in their "crib" in the indoor swimming pool at Lenox Hill Settlement House. The "crib" is a new device to help the youngsters learn to swim safely in pools and lakes. This one, perhaps the only one in the city, was christened and launched at ceremonies in the Play School yesterday morning, to the children's delight - and our perspiring discomfiture.*
